

Precision CNC Machining

Shanghai Yiliu Machinery Co., Ltd.

SERVICES

5-axis CNC machining | CNC milling | CNC turning | Swiss machining
Custom components reviewed against your drawings, material and quantity.

5-AXIS EQUIPMENT

Huanghu HU1300. Manufacturer-listed X/Y/Z travel: 1300/1300/1100 mm.
Installed options and usable workpiece envelope require project review.
Machine travel and instrument resolution are not part-tolerance guarantees.

MATERIALS & APPLICATIONS

Aluminum, stainless steel and other specified materials, subject to review.
Component examples in company literature cover automotive, semiconductor
and electronic communications applications.

QUALITY APPROACH

First-article, operator, in-process and final inspection.
CMM, vision, contour and roughness measurement selected by feature.
Inspection documents and reporting scope are agreed at quotation.

REQUEST A QUOTE

Send: 3D model / 2D drawing, revision, material grade, quantity, critical
tolerances, finish, target timing and required inspection documentation.
Files are stored privately. Pricing and delivery follow drawing review.
